

bimodal (0.2, 15, 75)

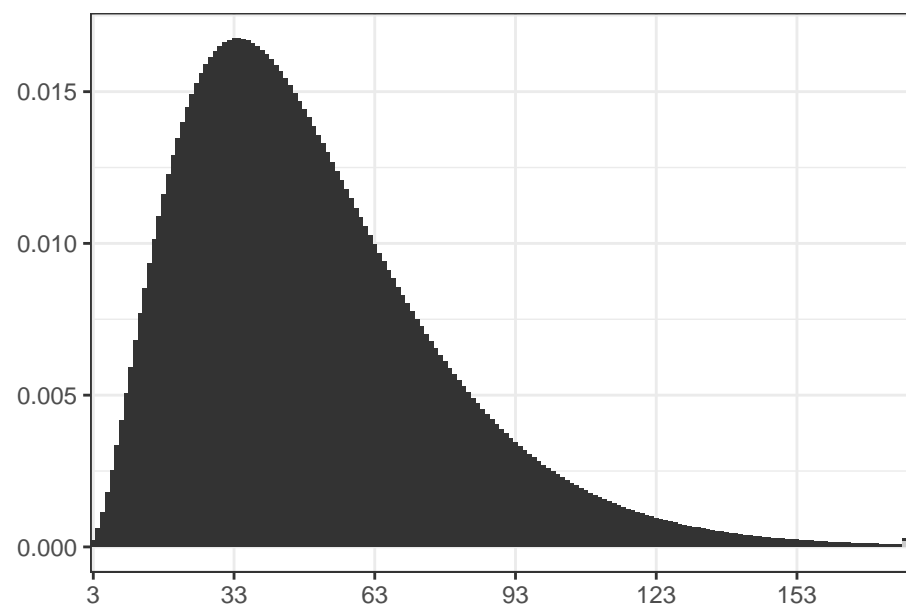

normal approximation (0.35, 50, 50)

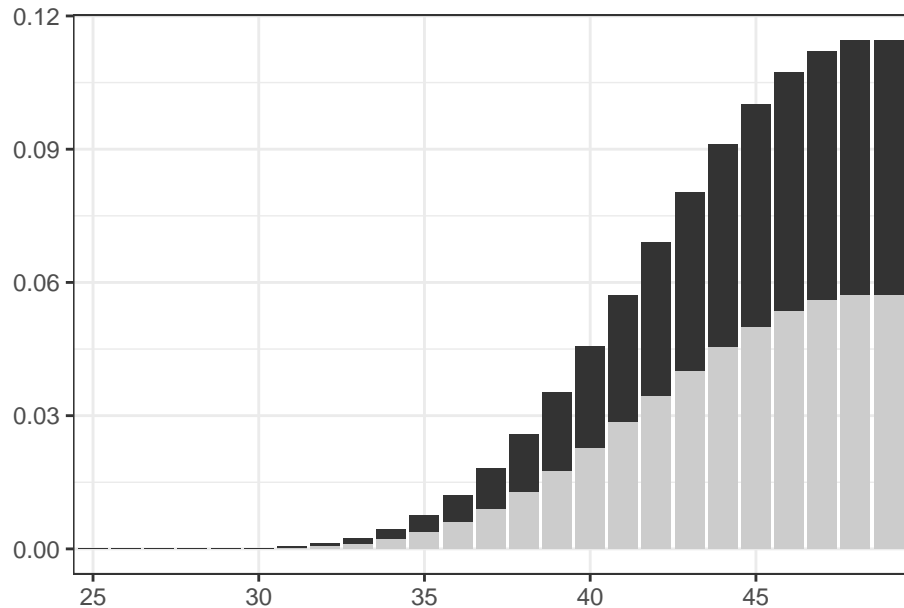

geometric or Poisson approximation (0.06, 10, 10)

gamma approximation (0.06, 3, 175)

lower half normal (0.5, 25, 25)

upper truncated normal (0.45, 25, 25)
