

**bimodal example (15, 75, .2)**

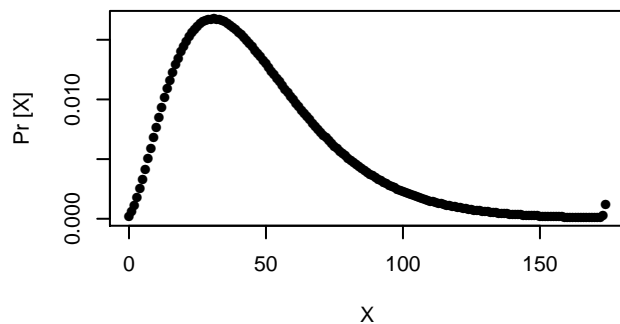

**approximate normal (50, 50, .35)**

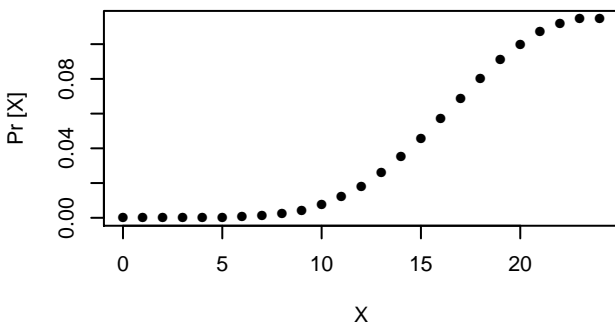

**geometric (10, 10, .06)**

**gamma approximation (3, 175, .06)**

**lower half-normal (25, 25, .5)**

**local mode at top of range (175, 2, .98)**
